BIOGRAPHICAL SKETCH

Patrick J. Conway [ca 1922 - 1994] was a life long resident of Syracuse NY He graduated from Niagara University and earned a Masters Degree from Syracuse University. Over the years, Mr. Conway was a lieutenant in the United States Navy during World War Two, an elementary School teacher and when he retired in 1984, an auditor in the New York State Department of Taxation and Finance.

Ever since his mother gave him a hockey picture when he was ten years old, Mr. Conway has collected sports material. His particular interest was hockey statistics and he traveled throughout Canada and most of the United States in search of material.

He was a member of the Society for International Hockey Research in Kingston and it is through this connection that his fine collection has come to the International Ice Hockey Museum in Kingston.

Mr. Conway is survived by his wife, the former Catherine McHale; two sons, Kevin and Brian both of Syracuse and three daughters Patricia Black of Syracuse, Nancy Micelli of Chandler, Ariz., Mary Jo Conway Munger of Phoenix, Oswego County and nine grandchildren.

CUSTODIAL HISTORY

The Patrick J. Conway Collection came to the International Hockey Museum (then International Ice Hockey Federation Museum) in Kingston, Ontario, on June 9, 1995. It was a gift to the museum from Mr. Conway's Family. Since the material had been in Mr. Conway's care until he died on Oct. 12, 1995, it arrived at the museum much as the collector left it when he died. The various series used here are substantially as Mr. Conway established them and except for transferring to clean new legal size file folders and new boxes, and relabelling that is necessary for preservation, the collection remains much as he kept it. When ever possible Mr. Conway's original labels and orders have been maintained.

SCOPE AND CONTENT NOTE

The Patrick J. Conway Collection consists of textual records and photographs. The inclusive dates are 1900 to 1994. Taken together these form a detailed record of the sport of ice hockey in North America. The greatest amount of material is statistical but there are also supporting documents and material such as pictures, guides, clippings and the correspondence that went into building this collection. Included here also are other collectors material such as Frank Buckland's History of the OHA.
