Foreword

The Newlands Collection of Drawings is comprised of nearly 1,200 drawings spanning the career of Kingston architect William Newlands, from 1882 until his death in 1926. In addition to his own drawings, there are a number by other architects (see page 350), which Newlands may have acquired while making alterations to the buildings in question.

The collection was acquired by the Queen's University Archives from the Newlands family in 1974. Since it was first listed by Anne MacDermaid and Elinore Phillips, a considerable amount of information has come to light about the drawings. Many originally listed as 'unidentified' have been recognized, and a number have been dated.

This revised and annotated catalogue incorporates information provided by Margaret Angus and J. Douglas Stewart, as well as my own observations and research. It is now stored in a computer data retrieval system which can be revised continuously as more information becomes available. Revisions are by no means complete. Users of the collection are invited to participate in the process by contributing new material resulting from their research (with documentation), to be included in the next edition.

I am grateful for the assistance and encouragement of the Queen's University Archives staff during this exercise, and also to Margaret Angus and J. Douglas Stewart for the use of their notes.

Fern E. Mackenzie Graham
Commonwealth Historic Resource Management Limited
Ottawa, March 1987

Use of the Catalogue

The original organization of the catalogue as outlined in the table of contents has been maintained, despite the fact that many drawings in the Unidentified and Miscellaneous categories are now identified. The Client and Address Indices provide a cross-reference system to locate these drawings.

In addition, a rough Chronological Index has been included for those drawings which are dated, or for which an approximate date has been determined based on tenders, registered documents, street directories, lettering, watermarks, and the name of the firm. In the catalogue entry, the basis for the date is given. For example, the architects of drawing 1: 0244 are Newlands and Reid, therefore it is dated '1888, partnership,' because that partnership existed during that year only (see synopsis of Newlands' career).

Abbreviations used in the catalogue include:

MA	source, Margaret Angus
JDS	source, J. Douglas Stewart
<u>KDN</u>	<u>Kingston Daily News</u>
<u>DBW</u>	<u>Daily British Whig</u>
<u>BAHS</u>	<u>Buildings of Architectural and Historic Significance.</u> (Kingston: LACAC, 1971ff.)
LACAC	Local Architectural Conservation Advisory Committee

Synopsis of William Newlands' Career

1853	Born in Kingston
1881-2	City Directory lists William Newlands of George Newlands and Son, indicating possible business association with his father
1882	Leaving the office of Power and Son, announces the opening of his practise on 8 February
1885	James Bruce Reid joins the office as an assistant
1888	Partnership of Newlands and Reid is announced on 2 February (lasted only one year)
1890	Newlands' name appears in the register of original 154 members on the Ontario Association of Architects (founded that year)
1900	Travelled west, at least to Winnipeg and Grand Forks (see 1: 0160, 2: 1135), possibly further
1902	Returned to Kingston before April of this year (see 2: 1050) Became a member of the Dominion Institute of Amalgamated Engineering, 17 July (see 9: 8050)
1905 c.	Son, John Creighton Newlands, joined the firm as a draughtsman
1910	Partnership of Newlands and Son was formed
1926	Retired; died 24 November

Documentation: The 1896-97 directory lists a new address for A. Gallinger at 909 Princess Street. I have not checked this out, but suspect the house is long gone, as this is the intersection of Bath Road & Princess Street. The directory information supports the date based on the lettering, assuming that the directory is referring to the same house.

Inscriptions: Design of Frame Cottage for John Hazlett Esq.
Front Elevation
End Elevation
Section
Ground Floor Plan
First Floor Plan
Basement Plan
Roof
Documentation: City directories 1881-1894
Registry documents W4839, P1938, U3880, Deed for Jan. 22,
1892 to John Hazlett for \$400.
History: In 1885-6 city directory John Hazlett, boilermaker, is
listed at 496 Brock Street. This may be an error, as
Wm. Hazlett, also a boilermaker, is listed at 476 Brock
Street, the residence adjoining Hazlett Cottage, and
subsequent directories show that they lived together.
John and William Hazlett probably lived at 476 Brock
Street until 1890, when John moved to 147 Frontenac
Street. He bought the site for Hazlett Cottage, corner
lots 790 and 791, in 1884 and 1892 respectively, but the

directory of 1893-94 lists the lot as 'vacant.' In the 1894 directory, John was in residence at his new house, therefore Hazlett cottage dates almost certainly to 1893. Subsequently George M. Hazlett inherited 476 Brock and 361 Frontenac in 1914 (32-28981). Howard D. Hazlett and wife Violet obtained it in 1939 (54-52979). Violet sold 361 to Wm. McCready in 1973 (239071), McCready to Krieger in 1974 (254438), to Broyden in 1978 (309449). John Hazlett was a Presbyterian (JDS) possibly part of the community that Newlands drew upon for commissions.

 (signed) J. McK____(illegible) H. Hunter, A. Harold

Documentation: Registry documents I 1589, R 2413, L 2561, N 4335

History: The land, known as the Belts Lot, was leased to George and Orlando Johnston on Aug 17, 1880 for 21 years. At the time, there was a house valued at \$500. on the property. Orlando was a florist, and presumably used the land for related purposes. He took over the lease completely in 1884. OGJ appears in the city directories at this location in 1892-93, although he did not purchase the land from his landlord until 1895. The house may date from 1895, but comparison with dating samples 1071(b) and 1125 support the date of 1892-3. If the greenhouse was built it has since been destroyed. The verandah has been closed in, and the cresting, ironwork and some of the spoolwork are gone.

 Deed 11-11868, October 27, 1894: Strange buys pt. lot 178 O.S. for \$1,100.
 City of Kingston Directory 1895-6: on north side of Union past Wellington 'unfinished house'
 History: J.C. Strange continued to reside at 34 Barrie Street (3 doors north of O'Kill) throughout the period. In '95, the city directory notes that a house at the corner of Wellington & Union is unfinished, but there is no indication that Strange moved into it (directories checked through 1898).

Swift, James

Location: King Street East, Kingston, Ontario
Building Type: residence
Date: 1892, tenders (0112[a])
Description: First floor and attic plans
in K & W. on linen

0112[e]
Swift, James

Location: King Street East, Kingston, Ontario
Architect: W. Newlands
Building Type: residence
Date: 1892, tenders
Drawing Type: ink & reverse wash on linen
Description: Floor plans, showing very complex arrangement
Inscriptions: Plans of a Residence for Jas. Swift Esq.
Documentation: as 0112[a]
History: City directories indicate that Swift lived at 134 King Street E during 1889-93. By 1894 he had moved to 161 King Street E. This suggests that he may have considered

building, changed his mind in 1894, and moved into 161 King Street E. The scale and grandeur of Newlands' design seem disproportionate with the accommodations Swift chose, assuming that the numbering on the street has not changed.

 Description: Early plan for the house
 Inscriptions: Floor Plans of Proposed Residence for E.M. Young, Esq.
 Picton Ont

Scale 1/8 inch = one foot.
 Plan of Ground Floor
 Plan of Chamber Floor
 watermark: cut through 'J. Whatman', no date
 Documentation: Picton Gazette, 14 June 1904: 'Brick Kiln Point, at the entrance of Picton Harbour, has been purchased by County Clerk, E.M. Young, upon which he will erect a home for himself.'

B&S 24 August 1903 to Clara Belle Young, purchase of 'Brick Kiln Point' (lot 1077 Tecumseth Ward) for \$1,001 from trustees for Charlotte A.S. Kirkpatrick, Kingston. Second Mortgage in 1906, April 21 for either \$1,500 or \$4,500 (abstract is very difficult to read)
 History: An article in the Whig Standard gives a very romantic story which does not bear scrutiny, attributing the design of the house to an American architect named Stanford Warrington who married Helen Bernice Young. The source for this misconception is unknown.
 Mr. Young was the county clerk, and apparently a lawyer of some stature, who died c. 1936.
 The design is related to the H.A.C. Taylor house by McKim, Mead and White (1885-86, Newport, R.I.), through a derivation published in a loose portfolio of coloured plates by John W. Masury and Co. c.1910, which in turn is probably reproduced from another source.

0281 (KAD no. 1)

Craig, James

Location: 427 King Street West, Kingston, Ontario
Architect: E.J.A.
Building Type: residence
Name of Building: Copsewerth
Date: 1878, inscribed
Drawing Type: pencil on paper
Description: Original elevation of Copsewerth, received with the Newlands Collection, now catalogued with Kingston Architectural Drawings Collection.
Inscriptions: No 1 of 7, 1878 E.J.A.
South Elevation
1/4" Scale
Documentation: Plan C2, June 30 1877, Morse Subdivision; N-133 (1877); U-3680 (1884); 13-13542 (1897); 25-23002 (1910)
History: Four 'villa' lots at Livingston and King (5, 6, 7 & 8) were purchased by James Craig, a bookkeeper, from George Morse in 1877 for \$1000. Drawings 0281 and 8010 appear to date from the period of construction, and are both signed by E.J.A. In 1884, Craig sold the property to Michael Doran, who acquired additional lots in 1887, extending his property to Ellerbeck. Newlands was probably engaged to upgrade the heating system in 1889, after he had dropped 'Jr' from his signature. His work might also include the additions to the house, including the conservatory. After Doran's death (1893) the property was sold to Adam Shortt (1897), who removed the conservatory and replaced it with a side verandah (see P6-K 81-7 K.P. Coll, QUA), which has since been enclosed. The tower has been shortened by a full storey. The property was purchased by John G. Ettinger, a teacher, in 1910. Much of the property was sold off thereafter.

Wilson, J.C.

Location: no address given, Lake-on-the-Mountain, Glenora
Architect: Newlands
Building Type: hotel
Name of Building: Columbian Hotel
Date: 1892, tenders
Drawing Type: watercolour
Description: Elevations of the hotel
Inscriptions: Design for a Summer Hotel, Lake on the Mountain
North Elevation
W. Newlands Archt Kingston
Scale 1/8
Documentation: Tenders published DBW 4 August 1892. DBW 6 August 1892, p.1: "The Columbian," a commodious hotel to be erected in the vicinity of the far famed Lake on the Mountain.

will be opened to the public next May.'

DBW 24 August 1892: 'Mr. Wilson, formerly hotel keeper in Picton, intends erecting a first-class summer hotel at Glenora this fall. The building will cost about \$10,000 and will be equipped with all the modern conveniences. Mr. Newlands, of this city, is the architect. The need of a summer hotel at this resort has been felt for many years. Mr. Wilson made P. McLaughlin an offer for the Windsor Hotel a short time ago.'

DBW 25 August 1892: 'It is J.C. Wilson, who runs the large gristmill at Glenora, who intends building a summer hotel there, and not Mr. Wilson, hotel-keeper of Picton. Mr. Newlands, architect, says the projected building will cost at least \$10,000, and will be lighted by electricity. Mr. Wilson also intends building a cable railway at the mountain and will do this even if the hotel is not erected this fall. Mr. Wilson owns the whole side of the mountain.

History:

At this point little is known, except that during the month of August, 1892, J.C. Wilson was going to build the hotel. No mention of a hotel on the site was made in a brochure published by the Lake Ontario and Bay of Quinte Steamboat Co. Ltd. for excursions along the Bay of Quinte Route in 1905. Neither is it mentioned in Picton's 100 Years (Picton Gazette, 1937).
